

# Coax Blocks

A **valmont** COMPANY

**Features:** Allows cable attachment by using 3/8" hardware (not included). Coax blocks are stackable to allow up to six runs of cable per tower attachment. Stronger than competitive brands in both vertical retention due to stiffening ribs, increased width and dimples.

**Construction:** Injection molded from UV resistant polypropylene for long term outdoor durability.

**Design Criteria:** Can be used outdoors or indoors.

Part #	Cable Size & Type	U of M	Weight/10 pk
