CEL-FI™ RED | Remote Annunciator

ERCES Solution

Remote Annunciator Panel (RA)

The Cel-Fi RED Remote Annunciator (RA) provides automatic supervisory signals for malfunctions of Cel-Fi ERCES public safety solutions. In addition to being NEMA 4 rated and complying with NFPA and IFC fire codes, the RA features PoE architecture for quick installation and alarm configuration with Cel-Fi QUATRA RED or SOLO RED installations. The RA also offers real-time component monitoring through the Cel-Fi WAVE Portal.
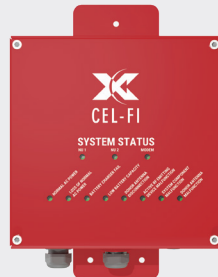

Key Features

- Supports Automatic Supervisory Signals for Malfunctions of Cel-Fi ERCES Installations
- Provides Real-Time System Status for Cel-Fi QUATRA RED and SOLO RED
- Operational Status Report via Cel-Fi WAVE Portal
- PoE Architecture for Ease of Install
- Complies with IFC and NFPA Fire Codes
- NEMA 4 Enclosure

SAFER BUILDINGS COALITION Member

Benefits

Intuitive interconnection with the fire alarm control panel

Doesn't requires additional batteries to operate

Simple alarm set up using the WAVE PRO app
