

FIBER OPTIC

CUSTOM CABLE ASSEMBLIES

5-7 DAY TURNAROUND

We are driven to fulfil your order as fast as possible. Our manufacturing team will turn your order around in 5-7 business days, from the date we receive your PO. Let us show you what our team can do for your business.

100% TESTED

Each assembly is 100% tested and shipped with a test report, indicating that it passed quality tests before leaving the factory. A copy of each report is kept on file and can be accessed by serial number to check cable quality in the field.
