## WIRELESS BROADBAND SOLUTIONS

### Wide Range – Capacities, Frequencies and Applications

Alliance offers a wide range of solutions from 1-10Gbps, 200MHz to 80GHz, Point to Point, Multi-point, Licensed and License Exempt. Plus we are your one stop partner for all the installation accessories you require for any job.

### Industry-leading Manufacturers

Our product portfolio has been selected to ensure our customers have the best-in-class product options and also a complete solution including the antennas, backup power, enclosures, cabling and towers.

### Design & Technical Services

Our team are industry veterans who know broadband wireless and will help you choose the right solution and get you the best pricing. We have a technical support staff to provide link path analysis, licensing assistance and even pre-configuration of radios.
